Point:1

Option1: 10"X15"X12"

Option2: 17"X30"X24"

Option3: 30"X40"X36"

Option4: 10"X15"

Answer: 10"X15"X12"

**Question6: What does this symbol indicate?**

Point:1

Option1: Buried Cable

Option2: Conduit

Option3: Bore

Option4: Innerduct

Answer: Bore

**Question7: Station marks should be -----to the cable.**

Point:2

Option1: Parallel

Option2: Perpendicular

Option3: beside

Option4: Opposite

Answer: Perpendicular

**Question8: what is the unit of measure for diameter?**

Point:3

Option1: Feet

Option2: Inches

Option3: Meters

Option4: All the above

Answer: Inches

**Question9: If a cable changes environments, it must be separated into separate cables according to each environment.**

Point:3

Option1: True

Option2: False

Answer: True

**Question10: What does this symbol indicate?**

Point:1

---

Option1: Buried Cable

Option2: Aerial Cable

Option3: Proposed Strand

Option4: Proposed Innerduct

Answer: Proposed Strand

**Question11: What is the below Redline indicates in the vicinity map?**

Point:2

Option1: Work Location

Option2: County Area

Option3: City Limits

Option4: All of the above

Answer: Work Location

**Question12: What does this symbol indicate?**

Point:1

Option1: Water Hydrant

Option2: Water valve

Option3: Water Meter

Option4: Fire Hydrant

Answer: Water Meter

**Question13: In Aerial permit, Aerial cable and proposed strand is only**

**required on DOT road.**

Point:3

Option1: True

Option2: False

Answer: False

**Question14: Any new path starts, station mark it should start from 0+00.**

Point:1

Option1: True

Option2: False

Answer: True

**Question15: which tie down measurements are required on permit drawings?**

Point:1

Option1: EOP to CL and CL to EOP

Option2: ROW to EOP and EOP to ROW

Option3: Proposed Cable to ROW or EOP

Option4: All the Above

Answer: All the Above

**Question16: North Arrow direction needs to be placed on each print?**

Point:1

Option1: True

Option2: False

Answer: True

**Question17: TCPs are required for any aerial crossing or any crossing involving a median?**

Point:1

Option1: May be

Option2: No

Option3: Yes

Option4: None of the above

Answer: Yes

**Question18: What does this symbol of HH indicate?**

Point:5

Option1: 10"X15"X12"

Option2: 17"X30"X36"

Option3: 30"X40"X36"

Option4: 17"X30"X24"

Answer: 17"X30"X24"

**Question19: Before commencing with the permit plans, who should decide type of permit needed?**

Point:2

Option1: Manager

Option2: Engineer

Option3: Customer

Option4: All of the above

Answer: Engineer

**Question20: What does this symbol indicate?**

Point:1

Option1: Pothole

Option2: Bore Pit

Option3: Hand Hole

Option4: Drop Vault

Answer: Bore Pit

**Question21: For city permit, All Rights are reserved with?**

Point:3

Option1: County

Option2: Municipality

Option3: States

Option4: All of the above

Answer: Municipality

**Question22: When permit is required?**

Point:3

- Option1: Any works inside Right of way
- Option2: Any works under private property
- Option3: Any works under Easements
- Option4: All of the above

Answer: Any works inside Right of way

Point:2

- Option1: DOT
- Option2: County
- Option3: City
- Option4: Railroad

Answer: City

**Question30: In city permits, for both aerial and buried installations, the street median should be depicted with reference to Google.**

Point:1

- Option1: No
- Option2: Yes
- Option3: May be
- Option4: None of the above

Answer: Yes

**Question31: If the road is not under State maintenance or falls within multiple municipality boundaries, the jurisdiction will be determined by the ----- Permit.**

Point:2

- Option1: DOT
- Option2: County
- Option3: City
- Option4: Railroad

Answer: County

**Question32: What does this symbol indicate?**

Point:1

- Option1: Strom Inlet
- Option2: Sever Inlet
- Option3: Catch Basin
- Option4: Water Inlet

Answer: Catch Basin

**Question33: If the fielder does not provide the information, what should be the default riser height?**

Point:3

- Option1: 20'
- Option2: 25'
- Option3: 18'
- Option4: 15'

Answer: 25'

**Question34: Potholes are placed when any underground utility crossing with buried cable.**

Point:2

- Option1: True
- Option2: False

Answer: True

**Question35: What should be the default Tie-down distance from proposed buried cable to BOC, if not provided by the fielder?**

Point:2

- Option1: 10'
- Option2: 4'
- Option3: 6'
- Option4: 5'

Answer: 5'

**Question36: What does this symbol indicate?**

Point:1

- Option1: CO Pole  
Option2: Pothole  
Option3: Power Pole  
Option4: Flowerpot

Answer: Pothole

**Question37: What does this symbol indicate?**

Point:1

- Option1: PFP  
Option2: Existing PED  
Option3: Proposed PED  
Option4: CMPL PED

Answer: Existing PED

**Question38: Call before you dig. A stamp must be depicted on each print if it is a buried permit plan.**

Point:3

- Option1: True  
Option2: False

Answer: False

**Question39: What is the correct format for displaying the existing cable attribute in the power permit print?**

Point:5

- Option1: EXISTING 5B92MT-24/ O.D.= 0.41 INCH/ 56 LBS/FT  
Option2: EXISTING 5B92MT-24/ O.D.= 0.41 INCH/ 56 LB/FT  
Option3: EXISTING 5B92MT-24/ o.D.= 0.41 INCH/ 56 LBS/FT  
Option4: EXISTING 5B92MT-24/ O.D.= 0.41 INC/ 56 LBS/FT

Answer: EXISTING 5B92MT-24/ O.D.= 0.41 INCH/ 56 LBS/FT

**Question40: What does this symbol indicate?**

Point:1

Option1: CATV Cable

Option2: Existing Copper cable

Option3: Existing Strad

Option4: None of the above

Answer: Existing Copper cable

**Question41: When vertical clearance is required to show in prints?**

Point:2

Option1: Existing cable bisecting a road

Option2: Proposed cable bisecting a road

Option3: Existing strand bisecting a road

Option4: All of the above

Answer: Proposed cable bisecting a road

**Question42: What does this symbol indicate?**

Point:1

Option1: Water Value

Option2: Water Meter

Option3: Fire Hydrant

Option4: Water Hydrant

Answer: Water Hydrant

**Question43: Permits are not usually required for Easements?**

Point:2

Option1: True  
Option2: False  
[Answer: True](#)

**Question44: Proper clearance/separation should be maintained according to specifications while crossing other utilities.**

Point:1

Option1: True  
Option2: False  
[Answer: True](#)

**Question45: Vehicle speed limit sign boards are required for DOT permits.**

Point:1

Option1: True  
Option2: False  
[Answer: True](#)

**Question46: When do we need show bore profile details on permit?**

Point:1

Option1: Buried Cable Road Crossing  
Option2: Buried Cable Parallel Running  
Option3: The proposed bore is for the HH to HH  
Option4: All the above  
[Answer: Buried Cable Road Crossing](#)

**Question47: What does this symbol indicate?**

Point:1

Option1: Power Pole

Option2: Light Pole  
Option3: CO Pole  
Option4: Large Pole  
Answer: Light Pole

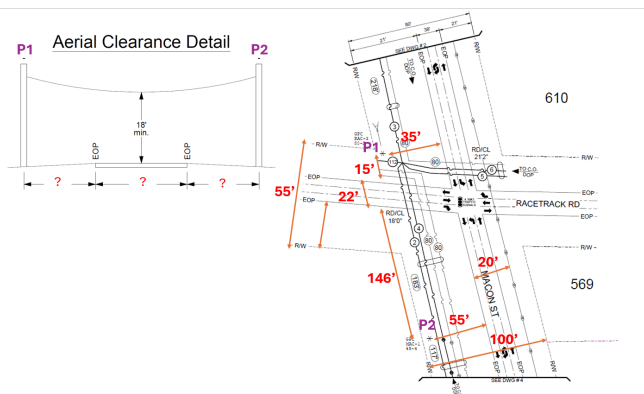

**Question48: Do all DOT roads have the same vehicle speed limit?**

Point:3

Option1: True  
Option2: False  
Answer: False

**Question49: Select the correct measurements for Aerial Clearance Stamp.**

Point:5

Option1: 15' 22' 15'  
Option2: 35' 22' 55'  
Option3: 55' 146' 15'  
Option4: 15' 22' 146'  
Answer: 15' 22' 146'

**Question50: Do we need to include all existing cable in DOT power permit?**

Point:1

Option1: True  
Option2: False  
Answer: True

**Result:**

Section1: 0

Total Score: 0/100

Percentage: 0%.

Remarks: Switching of Tab's detected.

**Result: NOT CLEARED**
